

Bar turning

What does this profession involve?

Bar turning is a cutting-edge sector in which France is a world leader.

As a precision mechanic, the bar turner manufactures small parts in series from bars mounted on machines called bar turning lathes, either automated or numerically controlled.

The salary of a bar turner

A beginner bar turner can earn between 1700€ and 1900€ per month.

A bar turner in the course of his career can earn 2200€ per month.

A bar turner can earn 2900€ for the most experienced profiles.

The trainings and the diplomas

It takes two years to prepare a National Vocational Certificate in bar turning to become a bar turning setting operator. You need three years to prepare a A- Level « Production of Mechanical products », option « Production and Follow-up ».
